DETAILED ACTION

Examiner's Comments

1. This action is in response to applicant's amendment received 28 July 2004. Applicant amended claim 1 and added new claims 2-4. The pending claims are now 1-4.

Specification

2. The disclosure is objected to because of the following informalities: Although applicant has disclosed on the application data sheet that this is a continuation of application, a statement that "This is a continuation of application 09/934,417, filed 8/26/2003." should be included in order to ensure the applicant's entitlement to the earlier filing date under 35 U.S.C 120 is not overlooked. Appropriate correction is required.

Claim Objections

3. Claims 2-4 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Dependent claims 2-4 are directed toward a perforation blade and claim 1 specifically states "A method of forming an easy-open portion of a bag".

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3721

Claims 2-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 2-4 do not positively site method steps and it is not clear how claims 2-4 further limit the method recited in claim 1.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by US 5,636,925 to Smiley. Smiley discloses the same invention including a bag made by means of forming an easy-open corner portion of a bag comprising forming a starter nick (slit or cut 80) in a skirt (61,61') of the bag, forming a series of closely spaced perforations (70) in the first and second walls (51,52) of the bag. Smiley further discloses forming the starter nick on the skirt portions extending from the seal line (60) up to the edge and thereby bypassing the seal line of the bag and the starter nick to be in alignment with the perforations so as to be proximate the starter nick to one edge of the bag (see column 5, lines 12-42).

Response to Arguments

7. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3721

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
